

SAFETY TESTET CERTIFIED

The new SKZ test seal for durable and safe animal toys. Set yourself apart from your competitors with approved quality!

The new SKZ test seal for pet supplies stands for:

- ✓ Durability
- ✓ Health safety
- ✓ Independent quality testing

THE SKZ TEST SEAL ... with significance

- ✓ Testing by our accredited testing laboratory
- ✓ Validity for a specified period
- ✓ Regular reassessment

Trust through tested quality!

Show your customers that your product meets the highest standards.

QUALITY FOR ANIMALS IS NOT A GIMMICK!

The SKZ test seal for pet supplies

TESTING EXPERTISE YOU CAN TRUST

As one of Europe's leading plastics institutes, SKZ offers product-specific testing for pet supplies.

UV & WEATHER RESISTANCE

In an artificial weathering test, we simulate:

- ✓ UV radiation
- ✓ Temperature changes
- ✓ Humidity

This is followed by a comprehensive evaluation of the material properties.

TESTING FOR HARMFUL SUBSTANCES

Safety comes first.

We test for substances that are relevant to health and the environment, e.g.:

- ✓ Phthalates, PAHs, nitrosamines
- ✓ Bisphenol A, heavy metals
- ✓ Brominated flame retardants

"WÜRZBURGER HUND" REALISTIC BITING AND CHEWING TEST

Using specially developed artificial teeth, we simulate the chewing behavior of a Golden Retriever:

- ✓ 10,000 bites with 50 kg bite force
- ✓ Material resistance testing
- ✓ Reduces the risk of small parts being swallowed

Advantages:

- ✓ Early vulnerability detection
- ✓ Realistic simulation
- ✓ Increased product safety

86% of dog toy buyers are willing to pay more for tested products – use this trust to your competitive advantage!
